Was this review helpful? Ok employment to start, but even when you go over and beyond work goes unused / unnoticed. No room for advancement, due to always being short staffed. Was this review helpful?very friendly, great staff, never felt uncomfortable, if I had any questions or concerns they would help me without hesitation. The lead was fantastic. Was this review helpful? Politely assisted patients in person and by phone. • Created appointments, called parents/patients if they missed any appointments. • Served as a central point of contact with information about patients OR cases, health and clearances. • Managed receptionist area, kept the waiting room clean, answered phone calls, greeted all visitors and answered any personal questions and made copies. • Made balloons and made sure the children were entertained with movies. • Received and distributed faxes and emails on timeWas this review helpful? When your child becomes a small hero, they are equipped with the super tools they need to beat the elusive Sugarbugs. Little Heroes Pediatric Dentistry is the headquarters where our dental team, or the aides as we like to call them, help Little Heroes in their mission to defeat Sugarbugs. We've put together a great team to help all little heroes in their quest to protect their teeth. The team started with founder delineated crusader Dr. Guzman, who discovered his superpowers in dental school and received special pediatric training to help Little Heroes. Dr. Guzman searched far and wide and found several other demarcated crusaders who received the same special training. They also found help in the form of aides, a great team that includes heroic hygienists, Super Dental Assistants and Crusading Coordinators. Mission directors also give a helping hand. They are not seen very often, but play a crucial role in the fight against cavities. The team has unique skills and knowledge to use super tools and is united in one mission: to help all Little Heroes protect your teeth from Sugarbugs. We're ready to be your sidekick. To help children learn to fight Sugarbugs, the Little Heroes team developed an animated story in which children learn the game plan for victory. Sugarbug's name is Plaki Plak, Gingi Gin and Cavity Creep. All villains are depicted in battle scenes at cartoons decorating our office. Before they are empowered and go into battle, all Little Heroes get a special tour of headquarters. This helps them understand how they can build courage to eliminate the fear that used to be associated with a dental visit. Headquarters soon feels like home, and the ride also helps build the kind of large-scale bravery and empowerment needed to defeat Sugarbugs during treatment. The Little Heroes sidekicks are trained professionals who have learned to combat plaques, gingivitis and cavities. Little Heroes learns about cavity prevention and dental care through missions and positive reinforcement. They even get to see what some have called state-of-the-art dental technology, such as digital X-rays and special intraoral cameras. These tools help Little Heroes track down Sugarbugs trying to make a home in their teeth. The biggest superpowers that aides have learned are fantasy and role-playing. Both help to teach your little hero how to ward off cavities, plaque and gingivitis. We know how scary and stressful a visit to the dentist can be for everyone, but we approach it with the utmost care and kindness to help your little hero feel calm and pull through with flying colors. The Little Heroes team helps your child increase self-esteem with healthy smiles that can last a lifetime with proper care. At Little Heroes Pediatric Dentistry, we strive for excellence in pediatric dental care with a vision that focuses on a healthy future for your child. The Little Heroes concept was specifically designed to help children feel safe, comfortable and empowered, while receiving dental treatment and learning to fight oral hygiene villains, Sugarbugs. The Little Hero Family calls all South Texas Little Heroes to San Juan, Mission and Laredo an unforgettable dental adventure. I hadn't taken my boy to a dentist since he was two because I wasn't allowed inside him. now he's 7 took him here and he loved it. He is actually looking forward to his next visit Johnny Verdin Very friendly and child-oriented! Although they had to wait because they did not call for xrays from the referring dentist although I took referral with instructions 30 minutes before appt. Carmen Puente We loved this place from the first time we left. This place has a super friendly staff and fantastic doctors. Recommend!
